1,500+ Five-Star Reviews on WeddingWire, The Knot, & Google
The Most Reviewed Photography Company in New York & New England

We Like to Keep Everything Simple and Worry-Free for Couples

We like to let couples enjoy their day and avoid statue-style, cheesy-looking, contrived, awkward, prom-looking shots. Along with must-get elegant family groups and beautiful couple pictures, we take many natural-looking candid photos that are unobtrusive, authentic, and real-looking. We believe in working hard and documenting each wedding story in a classy and elegant way. We say to couples, your job is to do nothing but enjoy your day, our job is to be prepared, work hard, and help make your wedding day experience worry-free. Here are some reasons to consider hiring Paul Saunders Photography.

10. Quality. Service. Value. You will get a timely email reply. I am hopeful you will be delighted with our flexibility. We will also do our best not to 'break the bank' with our coverage options.

9. Originally from England (with Australian roots), I enjoy my work as a wedding photographer. Along with my team, we have had the pleasure of working for hundreds of couples throughout upstate New York, Vermont, Massachusetts, Rhode Island, and Connecticut.

8. Compare my four album packages and you will find they offer value and flexibility. They also allow couples complete control post-wedding to self-design content. And if you are not sure you need an album package with extra content, consider [Weddings-by-the-Hour](#) (WBTH) coverage.

7. With all coverage options, there are no hidden fees. My pricing is upfront and transparent, so you know the cost of everything before you get started. **All rates include tax and there are no travel fees.** I am fully insured like any professional you hire should be. One recent industry survey (on The Knot) estimated 95% of wedding photographers, videographers, and dj's have no business liability insurance. I will provide a \$2-million certificate of insurance (COI) for your reception venue upon request.

6. Great selection of upscale leather wedding albums and flush-mounted coffee-table designer albums available if that is your cup of tea. Many options and choices you can add *a-la-carte* onto WBTH coverage post-wedding too. You have complete control and never get stuck with content not needed.

5. After your wedding, you will receive all your edited pictures on a flash drive (and a backup copy). **Online viewing is included for at least five years with any coverage selected.** This is a great way to share your pictures with anyone anywhere in the world. There is no copyright protection or logos imprinted on images on your flash drives or your online viewing link. All pictures belong to you allowing you complete control to print and share with no restrictions.

4. I have a \$200 album package discount for any Friday or Sunday wedding date excluding holiday weekends. Paul Saunders Photography appreciates the military. Any active (or former) service members will receive an upgraded framed canvas and extended online viewing for 20 years.

3. A \$300 winter wedding date album package discount. This is valid off any of my four main wedding album [packages](#) (*depending on venue location/distance*) for most November through March dates (excluding any holiday dates).

2. We are flexible and easy to work with and welcome creative ideas couples share with us. Along with all the must-get formal group shots and beautiful couple pictures, your wedding story will include lots of natural, authentic-looking, elegant candid moments that document the fun and excitement of your day as it happens in real time. And with all formal group pictures, we keep things moving so everyone gets to relax and enjoy your reception. We work for you and do not want you to miss your wedding.

1. I would enjoy the opportunity to learn more about your wedding and plans for your day. A phone call is a great and easy way to connect when you are ready. Just [email](#) with any questions and/or to schedule a good day/time that works for a phone chat. I will get back to you quickly.
